

NIZAM OMER

S O F T W A R E D E V E L O P E R

PROFILE

Full-stack web developer with over 4 years of professional experience specializing in architecting scalable web applications that deliver exceptional user experiences. I combine technical expertise with creative problem-solving to build responsive, accessible UIs and robust backend APIs while maintaining clean, maintainable code and industry best practices. Passionate about transforming complex problems into elegant digital solutions through modern web technologies and performance optimization.

PROFESSIONAL EXPERIENCE

I have collaborated with diverse companies and clients as a freelance remote developer, delivering tailored web solutions across various industries. My experience spans startups to established agencies, successfully managing multiple projects while maintaining high-quality standards and creating scalable, user-focused applications

Software Developer

Connex Agency | From 2025

Software Developer

TechKRD Company | From 2025

Software Developer

Box Advertising | From 2024

Software Developer

Self-Employed | From 2022

Key Achievements & Responsibilities:

- Developed and deployed full-stack web applications using Laravel backend and Vue.js/Nuxt.js frontend frameworks
- Created responsive, mobile-first user interfaces with Tailwind CSS and implemented state management using Pinia
- Built robust RESTful APIs and backend services with Laravel, ensuring optimal performance and security
- Collaborated with cross-functional teams to deliver projects on time while maintaining code quality standards
- Adapted to diverse technology stacks and client requirements across multiple concurrent projects
- Implemented modern development practices including version control, testing, and deployment automation
